Forecast Purpose/Objectives

Ohio Department of Education and Workforce's purposes/objectives for the five-year forecast are:

1. To engage the local board of education and the community in the long range planning and discussions of financial issues facing the school district.
2. To serve as a basis for determining the school district's ability to sign the certificate required by O.R.C. §5705.412, commonly known as the "412 certificate."
3. To provide a method for the Department of Education and Auditor of State to identify school districts with potential financial problems.

Forecast Methodology

This forecast is prepared based upon historical trends and current factors. This information is then extrapolated into estimates for subsequent years. The forecast variables can change multiple times throughout the fiscal year, and while cash flow monitoring helps to identify unexpected variances, no process is guaranteed. The intent is to provide the district's financial trend over time and a roadmap for decisions aimed at encouraging financial sustainability and stability.

Forecast Summary

Bellefontaine City School District

Projected Revenue, Expenditures, and Cash Balance

Financial Forecast Summary

	Fiscal Year 2025	Fiscal Year 2026	Fiscal Year 2027	Fiscal Year 2028	Fiscal Year 2029
Beginning Balance (Line 7.010) <i>*Includes Renewal/New Levy Revenue, see Disclosures</i>	7,371,627	7,536,460	7,042,967	5,478,033	2,288,921
+ Revenue	27,958,476	29,604,017	29,763,666	29,498,792	29,337,788
- Expenditures	(27,793,643)	(30,097,511)	(31,328,600)	(32,687,904)	(34,111,436)
= Revenue Surplus or Deficit	164,833	(493,493)	(1,564,934)	(3,189,112)	(4,773,649)
Line 7.020 Ending Balance with Renewal/New Levies	7,536,460	7,042,967	5,478,033	2,288,921	(2,484,728)

Financial Summary Notes

Expenditure growth is projected to outpace revenue change. By the end of 2029, the cash balance is projected to decline by a total of \$9,856,355 compared to 2024. For fiscal year 2029, expenditures are currently projected to exceed revenue, resulting in a revenue shortfall the final year of the forecast period.

For revenue, projected change is expected to be less than the historical average. Over the past five years, revenue increased by 3.18% (\$721,903 annually). However, it is projected to increase by 1.09% (\$301,756 annually) through fiscal year 2029. Notably, State Funding, is expected to be \$283,742 less per year compared to history, and is the biggest driver of trend change on the revenue side.

For expenses, projected change is forecasted to increase at a faster pace than the historical trend. Expenditures increased by 1.78% (\$391,526 annually) during the past 5-year period, and are projected to increase by 4.33% (\$1,295,022 annually) through 2029. The forecast line with the most change on the expense side, Salaries, is anticipated to be \$403,855 more per year in the projected period compared to historical averages.

Forecast Analysis

Bellefontaine City School District

Revenue Compared to Expenditures

From 2025 to 2029, total revenues are projected to change by 1.09%

Expenditure change is expected to outpace revenue change.

From 2025 to 2029, total expenses are projected to change by 4.33%

Revenue Surplus/(Shortfall) as a Percentage of Revenue

The district is trending toward revenue shortfall with the expenditures growing faster than revenue.
 A revenue increase of 16.27% is needed to balance the budget in fiscal year 2029, or a \$4,773,649 reduction in expenditures.

- The largest contributor to the projected revenue trend is the change in State Funding.
- The expenditure most impacting the changing trend is Salaries.

Days Cash on Hand at Fiscal Year-end

*based on 365 days

Annual Revenue Actual + Projected

Historic Revenue Change versus Projected Revenue Change

	Historical Average Annual \$\$ Change	Projected Average Annual \$\$ Change	Projected Compared to Historical Variance	Over the past five years, revenue increased by 3.18% (\$721,903 annually). However, it is projected to increase by 1.09% (\$301,756 annually) through fiscal year 2029. Notably, State Funding, is expected to be \$283,742 less per year compared to history, and is the biggest driver of trend change on the revenue side. The State Fiscal Years 2026-2027 Biennial Budget is currently making its way through the State Legislature. This forecast reflects the latest proposals as passed by the House. Much could change throughout the next several weeks. If those changes are materially significant, the District will strongly consider filing an updated forecast.
Real Estate	\$593,412	\$312,051	(\$281,361)	
Public Utility	\$62,702	\$56,747	(\$5,955)	
Income Tax	\$0	\$0	\$0	
State Funding	\$140,983	(\$142,759)	(\$283,742)	
State Share of Property Tax	\$51,659	\$36,753	(\$14,906)	
All Othr Op Rev	(\$127,135)	\$39,248	\$166,383	
Other Sources	\$283	(\$283)	(\$566)	
Total Average Annual Change	\$721,903 3.18%	\$301,756 1.09%	(\$420,148) -2.09%	

For Comparison:

Expenditure average annual change is projected to be >

\$1,295,022

On an annual average basis, expenditures are projected to grow faster than revenue.

1.010 - General Property Tax (Real Estate)

Revenue collected from taxes levied by a school district by the assessed valuation of real property using effective tax rates for class I (residential/agricultural) and class II (business).

Real estate property tax revenue accounts for 34.54% of total district general fund revenue.

Key Assumptions & Notes

Values, Tax Rates and Gross Collections							Gross Collection Rate Including Delinquencies
Tax Yr	Valuation	Value Change	Class I Rate	Change	Class 2 Rate	Change	
2023	372,815,840	(1,034,080)	27.45	-	32.12	-	100.8%
2024	371,660,680	(1,155,160)	27.41	(0.04)	32.10	(0.02)	99.2%
2025	419,560,680	47,900,000	26.61	(0.80)	30.19	(1.91)	99.2%
2026	423,710,680	4,150,000	26.55	(0.07)	30.08	(0.12)	99.2%
2027	427,860,680	4,150,000	26.48	(0.07)	29.96	(0.12)	99.2%
2028	480,760,680	52,900,000	25.80	(0.68)	28.30	(1.66)	99.2%

Class I, or residential/agricultural taxes make up approximately 68.28% of the real estate property tax revenue. The Class I tax rate is 27.41 mills in tax year 2024. The projections reflect an average gross collection rate of 99.2% annually through tax year 2028. The revenue changed at an average annual historical rate of 8.42% and is projected to change at an average annual rate of 3.12% through fiscal year 2029.

As has been mentioned in past forecasts, the dip in FY2022 is due to an over-collection that occurred with the First Half collections of CY2021. This was corrected in the Second Half collection of CY2021. This shifted cash flow from FY2022 to FY2021. There was a similar situation from FY2023 to FY2024, but to a significantly lesser degree.

1.020 - Public Utility Personal Property

Revenue generated from public utility personal property valuations multiplied by the district's full voted tax rate.

Public Utility Personal Property tax revenue accounts for 3.55% of total district general fund revenue.

Key Assumptions & Notes

Values and Tax Rates					Gross Collection Rate Including Delinquencies
Tax Year	Valuation	Value Change	Full Voted Rate	Change	
2023	17,566,100	1,867,520	51.68	(2.05)	100.0%
2024	19,934,240	2,368,140	51.64	(0.04)	71.5%
2025	20,884,240	950,000	50.84	(0.80)	99.0%
2026	21,859,240	975,000	50.78	(0.07)	99.0%
2027	22,834,240	975,000	50.71	(0.07)	99.0%
2028	23,809,240	975,000	50.03	(0.68)	99.0%

The public utility personal property tax revenue is generated from the personal property values, additions, and depreciation reported by the utility companies. The property is taxed at the full voted tax rate which in tax year 2024 is 51.64 mills. The forecast is modeling an average gross collection rate of 93.51%. The revenue changed historically at an average annual dollar amount of \$62,702 and is projected to change at an average annual dollar amount of \$56,747 through fiscal year 2029.

1.035 - Unrestricted Grants-in-Aid

Funds received through the State Foundation Program with no restriction.

Unrestricted State Aid revenue accounts for 49.88% of total district general fund revenue.

Key Assumptions & Notes

District Educated Enrollment

Beginning in fiscal year 2022, Ohio adopted the Fair School Funding Plan (FSFP). Funding is driven by a base cost methodology that incorporates the four components identified as necessary to the education process. The Base Cost is currently calculated for two years using a statewide average from historical actual data.

#REF!

The State's Share of the calculated Base Cost total is \$9,590,912, or \$4,567 per pupil.

The FSFP also started funding students where they attended school. Therefore district educated enrollment is now used for per pupil funding. At the same time, the FSFP eliminated tuition transfer payments from school districts, which impacts the expense side of the forecast.

1.040 & 1.045 - Restricted Grants-in-Aid

Funds received through the State Foundation Program or other allocations that are restricted for specific purposes.

Restricted State Aid revenue accounts for 4.01% of total district general fund revenue.

Key Assumptions & Notes

Restricted aid is the portion of state per pupil funding that must be classified as restricted use. Historically the district's restricted state aid changed annually on average by \$282,269 and is projected to change annually on average by \$175,293. Restricted funds represent 4.01% of the district's total revenue. Starting in fiscal year 2022, the district's Success & Wellness funding became restricted; the state's share of this funding recorded as restricted is \$446,247. This funding has implications on general fund expenditures in that certain spending now occurring in a fund external to the general fund could shift to the general fund. The expenditures in this forecast are adjusted to reflect this change.

The district is strongly considering applying for the CEP (Community Eligibility Provision) program starting in FY2026. Once in the program, the calculated Economically Disadvantaged % for the entire district will increase. This will, in turn, increase funding in the Restricted Grants-in-Aid category. It is important to note that these funds are restricted and may only be used for certain programs or certain student populations.

1.050 - State Share of Local Property Taxes

Includes funds received for Tangible Personal Property Tax Reimbursement, Electric Deregulation, Homestead and Rollback.

State Share of Local Property tax revenue accounts for 3.49% of total district general fund revenue.

Key Assumptions & Notes

State Share of Local Property Taxes primarily consists of reimbursements from the state of Ohio for local taxpayer credits or reductions to their tax bill. The state reduces the local taxpayer's tax bill with a 10% rollback credit, and 2.5% owner-occupied rollback credit, plus a homestead credit for qualifying taxpayers. In fiscal year 2025, approximately 9.9% local residential property taxes will be reimbursed by the state in the form of rollback credits and approximately 2.5% will be reimbursed in the form of qualifying homestead exemption credits.

Similar to what was stated in Section 1.010 (General Property Tax), the dip in FY2022 is due to an over-collection that occurred with the First Half collections of CY2021. This was corrected in the Second Half collections of CY2021. This shifted cash flow from FY2022 to FY2021.

1.060 - All Other Operating Revenues

Operating revenue sources not included in other lines; examples include tuition, fees, earnings on investments, rentals, and donations.

All Other Revenue accounts for 4.53% of total district general fund revenue.

Key Assumptions & Notes

Other revenue includes tuition received by the district for non-resident students educated by the district. It also includes interest income, payments in lieu of taxes, and miscellaneous revenue. The historical average annual change was -\$127,135. The projected average annual change is \$39,248 through fiscal year 2029.

Prior to the enactment of the FSFP, this section included revenue from any open enrollment in students the district was educating. The FSFP now includes all students the district is educating no matter their open enrollment status. Therefore, this section experienced a significant reduction during that transition. Also, there were significant rebates/refunds issued by the Ohio Bureau of Workers' Compensation upon direction from Gov. DeWine during FY2020 and FY2021. As anticipated, these did not continue at these levels/amounts into FY2022, causing additional reduction in this area.

Expenditure Overview

Bellefontaine City School District

Expenditure Categories

Personnel Costs

Salaries	57.13%
Benefits	25.94%

Purchased Services

11.82%

All Other Expenditures

Supplies, Capital, Debt, Other Obj	4.93%
Other Uses	0.18%

Annual Expenditures Actual + Projected

Historic Expenditures Change versus Projected Expenditures Change

	Historical Average Annual \$\$ Change	Projected Average Annual \$\$ Change	Projected Compared to Historical Variance	Expenditures increased by 1.78% (\$391,526 annually) during the past 5-year period, and are projected to increase by 4.33% (\$1,295,022 annually) through 2029. The forecast line with the most change on the expense side, Salaries, is anticipated to be \$403,855 more per year in the projected period compared to historical averages.
Salaries	\$255,054	\$658,909	\$403,855	
Benefits	\$218,600	\$386,897	\$168,296	
Purchased Services	(\$203,243)	\$155,528	\$358,771	
Supplies & Materials	\$65,979	(\$40,315)	(\$106,293)	
Capital Outlay	\$45,927	\$5,126	(\$40,801)	
Intergov & Debt	\$0	\$0	(\$0)	
Other Objects	\$7,210	\$20,878	\$13,668	
Other Uses	\$2,000	\$108,000	\$106,000	
Total Average Annual Change	\$391,526 1.78%	\$1,295,022 4.33%	\$903,495 2.55%	

For Comparison:
Revenue average annual change is projected to be >

\$301,756 On an annual average basis, revenues are projected to grow slower than expenditures.

3.010 - Personnel Services

Employee salaries and wages, including extended time, severance pay, supplemental contracts, etc.

Salaries account for 57.13% of the district's total general fund spending.

Key Assumptions & Notes

Salaries represent 57.13% of total expenditures and increased at a historical average annual rate of 1.78% (or \$255,054). This category of expenditure is projected to grow at an annual average rate of 3.82% (or \$658,909) through fiscal year 2029. The projected average annual rate of change is 2.03% more than the five year historical annual average.

As mentioned on page 8 in the Restricted Grants-in-Aid section of the forecast, Student Wellness & Success Funding was moved to the General Fund. Therefore, those costs which were being expended out of this dedicated fund (Fund 467) must also be moved into the General Fund. For the Bellefontaine City School District, this was all composed of certain salaries and benefits. This accounts for some of the increase to Personnel Services as well as the following section, Employees' Benefits.

FY2025 includes a 1.50% increase to base salaries as negotiated with BEA and OAPSE and approved by the Board. A 2.00% increase for all employees has been modeled for FY2026 through FY2029.

Finally, due to the next scheduled pay day adjustment in May 2025, there will only be 25 pay days during FY2025. This causes a slight dip in this category for the current fiscal year. All remaining years of the forecast return to having 26 pay days during the fiscal year.

3.020 - Employees' Benefits

Retirement for all employees, Workers Compensation, early retirement incentives, Medicare, unemployment, pickup on pickup, and all health-related insurances.

Benefits account for 25.94% of the district's total general fund spending.

Key Assumptions & Notes

Benefits represent 25.94% of total expenditures and increased at a historical average annual rate of 3.73%. This category of expenditure is projected to grow at an annual average rate of 5.08% through fiscal year 2029. The projected average annual rate of change is 1.34% more than the five year historical annual average.

Quite a bit of this category is driven by salaries. Therefore, as salaries increase, so does employee benefits. This category also includes insurance benefits costs. A small portion of the savings from the budget cuts of the summer of 2019 was offset by a 19% increase to medical insurance rates and a 5% increase to dental insurance rates effective in April 2020. The district was forced to make another increase to medical insurance rates in the amount of 16% effective April 2021. These increases affected the forecast beginning in FY2021 and continuing into FY2022, which can be seen in the graph above.

In April 2022, the district adopted a new insurance claim pricing strategy in an effort to reduce claim costs. This new pricing strategy has greatly reduced the need for insurance premium increases. At each of the last three plan renewal points (April 2023, April 2024, and April 2025), the district was able to keep insurance premium increases under 3% while still maintaining a healthy reserve amount.

A 5% increase in insurance premiums has been modeled for all five years of the forecast.

3.030 - Purchased Services

Amounts paid for services rendered by personnel who are not on the payroll of the school district, expenses for tuition paid to other districts, utility costs and other services which the school district may purchase.

Purchased Services account for 11.82% of the district's total general fund spending.

Key Assumptions & Notes

Purchased Services represent 11.82% of total expenditures and decreased at a historical average annual rate of 4.55%. This category of expenditure is projected to grow at an annual average rate of 4.90% through fiscal year 2029. Starting in 2022, the Fair School Funding Plan (State Funding) only accounted for district educated enrollment, thereby reducing district tuition costs for open enrollment 'out,' community schools, STEM, and scholarship students. This change resulted in lower district costs, but also less per pupil state revenue since per pupil funding is now paid directly by the state to the district students attend.

A 3% increase each year has been modeled for all line items.

3.040 - Supplies & Materials

Expenditures for general supplies, instructional materials including textbooks and media material, bus fuel and tires, and all other maintenance supplies.

Supplies and Materials account for 2.10% of the district's total general fund spending.

Key Assumptions & Notes

Supplies & Materials represent 2.10% of total expenditures and increased at a historical average annual rate of 12.52%. This category of expenditure is projected to decrease at an annual average rate of 4.07% through fiscal year 2029. The projected average annual rate of change is 16.59% less than the five year historical annual average.

The district continues to strictly monitor expenses. This category was greatly affected during FY2020 and FY2021 due to COVID-19. As expected, the Supplies and Materials category increased in FY2022 to a level closer to that prior to COVID-19. FY2023 saw an additional increase due to technology needs of the district. FY2024 includes a large one-time curriculum expense that is then removed in FY2025. All line items in this category have been modeled at a 2.00% - 3.00% increase through FY2029.

3.050 - Capital Outlay

This line includes expenditures for items having at least a five-year life expectancy, such as land, buildings, improvements of grounds, equipment, computers/technology, furnishings, and buses.

Capital Outlay account for 1.41% of the district's total general fund spending.

Key Assumptions & Notes

Capital Outlay represent 1.41% of total expenditures and increased at a historical average annual amount of \$45,927. This category of expenditure is projected to grow at an annual average rate of \$5,126 through 2029. The projected average annual change is less than the five year historical annual average.

While bus purchases have, historically, been included in appropriations, this has not been reflected in the forecast. Therefore, a strategy of replacing four buses every five years (one each fiscal year except in those fiscal years that end in a "0" or "5") has been modeled in this forecast. This strategy, beginning in FY2024, can be observed in the graph above. This will allow for a complete turnover of the district's bus fleet every 20 years. FY2025 should have been an off year for this strategy. However, due to current needs, Roger Ely (Executive Director of Administrative Services), recommended an additional bus purchase in FY2025.

There was an increase in FY2024 due to additional technology needs of the district. Some of this was left in the forecast starting in FY2025 moving forward.

4.300 - Other Objects

Primary components for this expenditure line are membership dues and fees, ESC contract deductions, County Auditor/Treasurer fees, audit expenses, and election expenses.

Other Objects account for 1.42% of the district's total general fund spending.

Key Assumptions & Notes

Other Objects represent 1.42% of total expenditures and increased at a historical average annual rate of 2.58%. This category of expenditure is projected to grow at an annual average rate of 5.62% through fiscal year 2029. The projected average annual rate of change is 3.04% more than the five year historical annual average.

A 3% increase has been modeled each year of the forecast for all line items in this category.
